PITCHING IN FOR KIDS MENTAL HEALTH

SPONSORSHIP PACKAGE

Who We Are

Compass offers FREE mental health, developmental, and community services to children, youth under 18 and families in Districts of Sudbury and Manitoulin. We collaborate with schools, daycares, and medical professionals to provide comprehensive support network. Services are available in both English and French, breaking language barriers. We also provide culturally based services, promoting inclusivity and a nurturing environment. In Ontario, 1 in 5 children and youth grapple with mental illness. Our centers are lifelines, supporting 700 families at any given time. On average, Compass serves 2000 families per year.

Our Goal

Compass' purpose is to work together to create paths with children, youth and families to reach their full potential and we cannot do that without your support! Funds raised from this event will help us achieve our purpose by decreasing barriers for youth and families accessing the care they need while also giving them opportunities to partake in enriching recreational and educational activities to help them realize their full potential. Specifically, these funds will allow Compass to provide bursaries for youth with mental health challenges, alleviating some of the financial burn of post secondary education. In addition, funds raised will support Compass' "Client Experience Fund" which will support clients in a variety of ways including providing wellness kits, school supplies, recreational activities or equipment or to support other clinically-identified needs. Our goal for Pitching In for Kids Mental Health 2024 is to raise \$15,000 to support these activities while also raising awareness about child and youth mental health needs and supports available in the community.

Become a Sponsor

Mental health matters, especially for our young ones. By contributing to Compass, you empower us to extend crucial services to those navigating mental health challenges. Your donation fuels programs, ensuring we offer the best support for young minds. Together, we can champion mental health in our community, organizing educational events and outreach programs. Join us in making a positive impact on the well-being of our children and youth.
